

Why host a Chamber Mixer?

Are you looking to meet local business owners, or introduce your new business, products, or services to the community? A mixer is an excellent way to get together in person and gain new contacts.

If you want to gain more exposure for your business and increase your company's brand awareness, consider hosting a chamber mixer.

Benefits

Personalized Business Promotion

The Chamber actively promotes Business Mixers to Chamber Members and local community. The host member's information and logo (if applicable) are included on all promotional materials.

Marketing

The host member has an opportunity to showcase their business and to make a brief presentation. Chamber Members who have attended a Business Mixer tend to patronize that business more, are more familiar with the host's business activities and are more likely to refer others to the host business.

Networking

Opportunity to network and get to know local community leaders and business people on both a personal and professional level.

Community Enrichment

Mixers create a venue for networking and business promotion for all attendees. Business and personal relationships are strengthened and enriched.

Be the place where great connections happen

Host a mixer and get some exposure for your business and be remembered as a venue where business connections happened.

Lomita Chamber mixers attract an average of 40 guests.
